**Add 100.64.0.0/10 prefixes to IPv4 Locally-Served DNS Zones Registry.
draft-andrews-dnsop-rfc6598-rfc6303-02**

Abstract

[RFC6598](#) specified that: "Reverse DNS queries for Shared Address Space addresses [100.64.0.0/10] MUST NOT be forwarded to the global DNS infrastructure."

This document formally directs IANA to add the associated zones to the "IPv4 Locally-Served DNS Zones Registry" to prevent such queries accidentally leaking to the global DNS infrastructure.

Status of this Memo

This Internet-Draft is submitted in full conformance with the provisions of [BCP 78](#) and [BCP 79](#).

Internet-Drafts are working documents of the Internet Engineering Task Force (IETF). Note that other groups may also distribute working documents as Internet-Drafts. The list of current Internet-Drafts is at <http://datatracker.ietf.org/drafts/current/>.

Internet-Drafts are draft documents valid for a maximum of six months and may be updated, replaced, or obsoleted by other documents at any time. It is inappropriate to use Internet-Drafts as reference material or to cite them other than as "work in progress."

1. Introduction

[RFC6598] specified that: "Reverse DNS queries for Shared Address Space addresses [100.64.0.0/10] MUST NOT be forwarded to the global DNS infrastructure." [RFC6303] provides guidance on handling such queries.

This document directs the IANA to add the IPv4 reverse zones corresponding to 100.64.0.0/10, a netblock reserved in [RFC6598], to the IPv4 Locally-Served DNS Zone Registry established in [RFC6303].

Unlike [RFC1918] address, which are not expected to be seen by other parties, the addresses from [RFC6598] are expected to be seen by parties other than those deploying the addresses, so it is more crucial that recursive nameservers default to serving these zones locally.

2. Changes to IPv4 Locally-Served DNS Zones Registry

To add the following zone listed in RFC6598 Zones ([Section 2.1](#)) to the "IPv4 Locally-Served DNS Zone Registry".

3. IANA Considerations

This document directs IANA to add the zones listed in [RFC6598](#) Zones

([Section 2.1](#)) to the "IPv4 Locally-Served DNS Zone Registry".

4. Security Considerations

This document is thought to present no additional security risks to the Internet.
