**Email provider should provide email owner an audit log
draft-emaillogger-02**

Abstract

This document describes the need for an email service provider to provide a feature to the email owner to log who and where has logged into his email by an email itself if possible.

Status of This Memo

This Internet-Draft is submitted in full conformance with the provisions of [BCP 78](#) and [BCP 79](#).

Internet-Drafts are working documents of the Internet Engineering Task Force (IETF). Note that other groups may also distribute working documents as Internet-Drafts. The list of current Internet-Drafts is at <http://datatracker.ietf.org/drafts/current/>.

Internet-Drafts are draft documents valid for a maximum of six months and may be updated, replaced, or obsoleted by other documents at any time. It is inappropriate to use Internet-Drafts as reference material or to cite them other than as "work in progress."

This Internet-Draft will expire on Oct 17, 2015.

[1. Introduction](#)

To enforce standards for email providers to provide an audit or email logging feature. So i own pradeepan88@hotmail.com, i should be able to configure that whenever pradeepan88@hotmail.com is logged in an email should be generated and send to the same email or some other email.

[2. Background](#)

I have no clue who logs into my emails and this disturbs me.
I should know from which IP's my email was logged into.

3. General Information of the service

I should be able to go to security settings of my email and
provide an email where audit of logins to my email are send.
It can be send once every ten or hundred logins.

(Its a shame that these are not implemented a group trying to
murder me or make me a disabled and preventing me from leading
my life in California. Anyone can own this and use their
resources to implement these, they can just email me. As i am writing
this out of my own requirement, i demand my personal wealth not
used to maintain ietf.org or to send emails. Its my impression
that they are self sufficient. I would work on these when i have
my money in my bank at my speed)

5. Acknowledgement

I have been a publisher of <http://www.dhyanayoga.info> since 2004/2005
and <http://www.explodingmoon.org> since 2008. I am send money by many
groups but a group of shamless cybercriminals are logging into my emails
and handling those. I have no clue who logs into my emails and an audit log
would help.
