Abstract

This document defines an HTML format that can be used for the production of Internet-Drafts and RFCs.

Status of this Memo

This Internet-Draft is submitted in full conformance with the provisions of [BCP 78](#) and [BCP 79](#).

Internet-Drafts are working documents of the Internet Engineering Task Force (IETF). Note that other groups may also distribute working documents as Internet-Drafts. The list of current Internet-Drafts is at <http://datatracker.ietf.org/drafts/current/>.

Internet-Drafts are draft documents valid for a maximum of six months and may be updated, replaced, or obsoleted by other documents at any time. It is inappropriate to use Internet-Drafts as reference material or to cite them other than as "work in progress."

This Internet-Draft will expire on January 8, 2013.

1. Redirect

The real contents of this document currently only exist in HTML format. The next version of this draft will have all the contents of the HTML in the text-based format traditionally used for Internet-Drafts. Until that time, it was more important to the author that the information be readily available to the Internet community as soon as possible.
