Common Open Policy Services (COPS) Protocol (RFC 2748), defines the
capability of reporting information to the Policy Decision Point
(PDP). The types of report information are success, failure and
accounting of an installed state. This document focuses on the COPS
Report Type of Accounting and the necessary framework for the
monitoring and reporting of usage feedback for an installed state.

This document is a product of the Resource Allocation Protocol Working
Group of the IETF.
