

A new Request for Comments is now available in online RFC libraries.

[RFC 3242](#)

Title:           RObust Header Compression (ROHC):  
                  A Link-Layer Assisted Profile for IP/UDP/RTP  
Author(s):      L-E. Jonsson, G. Pelletier  
Status:          Standards Track

This document defines a ROHC (Robust Header Compression) profile for compression of IP/UDP/RTP (Internet Protocol/User Datagram Protocol/Real-Time Transport Protocol) packets, utilizing functionality provided by the lower layers to increase compression efficiency by completely eliminating the header for most packets during optimal operation. The profile is built as an extension to the ROHC RTP profile. It defines additional mechanisms needed in ROHC, states requirements on the assisting layer to guarantee transparency, and specifies general logic for compression and decompression making use of this header-free packet.

This document is a product of the Robust Header Compression Working Group of the IETF.

This is now a Proposed Standard Protocol.

This document specifies an Internet standards track protocol for the Internet community, and requests discussion and suggestions for improvements. Please refer to the current edition of the "Internet Official Protocol Standards" (STD 1) for the standardization state and status of this protocol. Distribution of this memo is unlimited.

This announcement is sent to the IETF list and the RFC-DIST list. Requests to be added to or deleted from the IETF distribution list should be sent to IETF-REQUEST@IETF.ORG. Requests to be added to or deleted from the RFC-DIST distribution list should be sent to RFC-DIST-REQUEST@RFC-EDITOR.ORG.

Details on obtaining RFCs via FTP or EMAIL may be obtained by sending

an EMAIL message to rfc-info@RFC-EDITOR.ORG with the message body  
help: ways\_to\_get\_rfcs. For example:

To: rfc-info@RFC-EDITOR.ORG  
Subject: getting rfcs

help: ways\_to\_get\_rfcs

Requests for special distribution should be addressed to either the  
author of the RFC in question, or to RFC-Manager@RFC-EDITOR.ORG. Unless  
specifically noted otherwise on the RFC itself, all RFCs are for  
unlimited distribution.echo

Submissions for Requests for Comments should be sent to  
RFC-EDITOR@RFC-EDITOR.ORG. Please consult [RFC 2223](#), Instructions to RFC  
Authors, for further information.
