Expert Review for IODEF Extensions in IANA XML Registry
draft-trammell-mile-iodef-xmlreg-01.txt

Abstract

This document specifies restrictions on additions to the subset of the IANA XML Namespace and Schema registries, to require Expert Review for extensions to IODEF.

Status of this Memo

This Internet-Draft is submitted in full conformance with the provisions of [BCP 78](#) and [BCP 79](#).

Internet-Drafts are working documents of the Internet Engineering Task Force (IETF). Note that other groups may also distribute working documents as Internet-Drafts. The list of current Internet-Drafts is at <http://datatracker.ietf.org/drafts/current/>.

Internet-Drafts are draft documents valid for a maximum of six months and may be updated, replaced, or obsoleted by other documents at any time. It is inappropriate to use Internet-Drafts as reference material or to cite them other than as "work in progress."

This Internet-Draft will expire on September 8, 2012.

This document is subject to [BCP 78](#) and the IETF Trust's Legal Provisions Relating to IETF Documents (<http://trustee.ietf.org/license-info>) in effect on the date of publication of this document. Please review these documents carefully, as they describe your rights and restrictions with respect to this document. Code Components extracted from this document must include Simplified BSD License text as described in Section 4.e of the Trust Legal Provisions and are provided without warranty as described in the Simplified BSD License.

1. Introduction

IODEF extensions via class extension through AdditionalData and RecordItem elements, as per [section 5.2 of \[RFC5070\]](#), generally register their namespaces and schemas with the IANA XML Namespace registry at <http://www.iana.org/assignments/xml-registry/ns.html> and the IANA XML Schema registry at <http://www.iana.org/assignments/xml-registry/schema.html>, respectively [[RFC3688](#)].

In addition to schema reviews required by IANA, these registry requests should be accompanied by a review by IODEF experts to ensure the specified AdditionalData and/or RecordItem contents are compatible with IODEF and with other existing IODEF extensions. This document specifies that review.

2. Expert Review of IODEF-related XML Registry Entries

Changes to the XML Schema registry for schema names beginning with "urn:ietf:params:xml:schema:iodef" are subject to an additional IODEF Expert Review [[RFC5226](#)].

The IODEF expert(s) for these reviews will be designated by the IETF Security Area Directors.

3. Security Considerations

This document has no security considerations.

4. IANA Considerations

[IANA NOTE: The authors request that IANA include a note at the top of <http://www.iana.org/assignments/xml-registry/schema.html>, stating "Changes to the XML Schema registry for schema names beginning with 'urn:ietf:params:xml:schema:iodef' are subject to an additional IODEF Expert Review [[RFC5226](#)]," and naming the designated expert.]

This document specifies additional expert reviews for IODEF extensions, on the XML Schema registry (<http://www.iana.org/assignments/xml-registry/schema.html>), in [Section 2](#).
