URL: <ftp://ftp.rfc-editor.org/in-notes/rfc3297.txt>

This memo describes a content negotiation mechanism for facsimile, voice and other messaging services that use Internet email.

Services such as facsimile and voice messaging need to cope with new message content formats, yet need to ensure that the content of any given message is renderable by the receiving agent. The mechanism described here aims to meet these needs in a fashion that is fully compatible with the current behaviour and expectations of Internet email.

This document is a product of the Internet Fax Working Group of the IETF.

This is now a Proposed Standard Protocol.

This document specifies an Internet standards track protocol for the Internet community, and requests discussion and suggestions for improvements. Please refer to the current edition of the "Internet Official Protocol Standards" (STD 1) for the standardization state and status of this protocol. Distribution of this memo is unlimited.

This announcement is sent to the IETF list and the RFC-DIST list. Requests to be added to or deleted from the IETF distribution list should be sent to IETF-REQUEST@IETF.ORG. Requests to be added to or deleted from the RFC-DIST distribution list should be sent to RFC-DIST-REQUEST@RFC-EDITOR.ORG.

Details on obtaining RFCs via FTP or EMAIL may be obtained by sending

an EMAIL message to rfc-info@RFC-EDITOR.ORG with the message body  
help: ways\_to\_get\_rfcs. For example:

To: rfc-info@RFC-EDITOR.ORG  
Subject: getting rfcs

help: ways\_to\_get\_rfcs

Requests for special distribution should be addressed to either the  
author of the RFC in question, or to RFC-Manager@RFC-EDITOR.ORG. Unless  
specifically noted otherwise on the RFC itself, all RFCs are for  
unlimited distribution.echo

Submissions for Requests for Comments should be sent to  
RFC-EDITOR@RFC-EDITOR.ORG. Please consult [RFC 2223](#), Instructions to RFC  
Authors, for further information.
