

6LoWPAN ND Address Protection

Behcet Sarikaya, Pascal Thubert, Mohit Sethi

IETF 100

Singapore

Status of 6LoWPAN ND extensions

- Reviews by Charlie Perkins and Bob Moskowitz
 - Changes applied in 03
 - Editorial clarifications, important rewriting
 - Crypto ID computation clarified
- Reviews by René Struik
 - Changes applied in 04
 - Now reference RFC 8032 for alternate signature using EdDSA curve Ed25519ph (pre hash for consistency)

What's next?

- Ready for SecDir review and then WGLC
