...-dtsecurity-zerotouch-join

Authors: Michael Richardson, Benjamin Damm

Status

- -01 version posted Oct. 30.

    - -00 version synchronized with ANIMA BRSKI -07 draft.

    - -01 version synchronized with ANIMA BRSKI -09, which is almost in WGLC.

        - Document is almost feature complete. Old text is in appendix, which is shrinking.

- Includes CBOR/CWT based voucher format using -ietf-core-yang-cbor/

    - Uses experimental SID values (draft-ietf-core-sid). Hope that this document will progress soon.

- Assumes underlying security provided by one of DTLS, OSCORE and/or EDHOC.

- Charter milestone update says done in October 2018, hope to beat that.

Issues

- Many dependencies in other groups: CORE, ACE, and two not yet adopted anywhere.

- Few reviewers/contributors so far

  - But primary author making good progress.

-
