

Inclusion of Internationalized Email Addresses in PKIX certificates

draft-ietf-lamps-eai-addresses-15.txt

Weihaw Chuang
Alexey Melnikov

Changes since -12 (Prague)

- EKR's AD review: Renamed some ASN.1 attributes to be clearer on what they contain (e.g. SntpUTF8Name → SntpUTF8Mailbox)
- EKR's AD review: summarized rules of which subjectAltName to use for different ASCII/non-ASCII local parts/domains in email addresses.
- Fixed some typos.

Next steps

- IETF LC resulted in several reviews which said “ready to publish”
- Ready for IESG Evaluation?
