Onboard with GoDaddy Questionnaire

Please answer the questions below for each of your TLDs, choosing from the response options noted to the right of the question and adding additional detail where required. Please note that these are samples only, and the responses you provide should be specific to your systems and TLDs. If you need assistance at any or Program Manager.

**Partner Information**

Please indicate who we should contact with questions about your survey responses, if needed:

- **Company Name**
- **Individual Name**
- **Email**
- **Phone**

Who will bill GoDaddy for charges related to sales of your TLD(s)?

Please enter the TLD or TLDs that this information will apply to or indicate that this applies to all of your TLDs. Separate each TLD with a comma.

**Marketing Projections - Sales Volumes**

For the Sunrise phase, please outline the anticipated sales volume, by TLD units, and marketing investment for the Sunrise Phase (all Registrars, all TLDs).

- **TLD #1 Name:**
  - Sales Volume:
  - Investment in creating overall market awareness of TLD:
  - Investment in driving demand with GoDaddy customers via GoDaddy marketing programs:

For the Landrush phase, please outline the anticipated sales volume, by TLD units, and marketing investment for the Sunrise Phase (all Registrars, all TLDs).

- **TLD #1 Name:**
  - Sales Volume:
  - Investment in creating overall market awareness of TLD:
  - Investment in driving demand with GoDaddy customers via GoDaddy marketing programs:

For the Landrush phase, please outline the anticipated sales volume, by TLD units, and marketing investment for the Landrush Phase (all Registrars, all TLDs).

- **TLD #1 Name:**
  - Sales Volume:
  - Investment in creating overall market awareness of TLD:
  - Investment in driving demand with GoDaddy customers via GoDaddy marketing programs:

Beyond years one and two of General Availability, please outline the anticipated sales volume, by TLD units, and marketing investment for the Sunrise Phase (all Registrars, all TLDs).

- **TLD #1 Name:**
  - Sales Volume:
  - Investment in creating overall market awareness of TLD:
  - Investment in driving demand with GoDaddy customers via GoDaddy marketing programs:

**Pricing**

Please answer the pricing questions below for each TLD.

- **TLD #1 Name:**
  - What is the renewal cost per year for a 1 year registration? Is there a rollover fee for renewals?
  - Is there a transfer fee for this TLD? What is the cost?
  - What is the registration fee for a 1 year registration?
  - What is the transfer fee for a 1 year registration?
  - Does the TLD have a premium price? If yes, please outline the premium price per year.
  - What is the Landrush registration fee per year?
  - Do you plan to offer any domain at a non-standard price? If yes, please outline the non-standard price per year.
  - Do you plan to offer multiple price tiers? If yes, please outline the price tiers.

**Founders Phase**

Are you planning a Founders Phase?

**Founders Phase - Details (Only required if planning a Founders Phase)**

Provide a general overview of your Founders Phase.

- **TLD #1 Name:**
  - What are the dates and times for the Founders Phase for each of your TLDs? (Enter date as mm-dd-yyyy and time as UTC, for example 10-10-2015 06:00:00:00.)
  - Start date & time:
  - End date & time:

**Sunrise Phase**

Please confirm if you will be conducting a single Sunrise Phase or multiple phases for this TLD.

- **TLD #1 Name:**
  - First Phase start date & time:
  - First Phase end date & time:
  - Second Phase start date & time:
  - Second Phase end date & time:
  - Third Phase start date & time:
  - Third Phase end date & time:

Will there be Registrar limitations or eligibility requirements for TLD purchases during the Sunrise Phase(s)? [Example: Does the Registrar need to be from a certain country?] If applicable, please provide information on how these requirements will differ by phase if you will be conducting multiple phases.

Will the Registrar be required to collect any additional information or perform any verification of that information during the Sunrise Phase(s)?

Will the Registrar need to accept any special Registry agreements during the Sunrise Phase(s)? If yes, please outline the agreement.

Please confirm that all Sunrise Phases will only use the Trademark Claims Service, without exception.

Please confirm that domains will be awarded within 7 days of the close of the Sunrise Phase(s).

Please confirm that Sunrise application results will be communicated by phone.

Can you cancel a Sunrise Phase application once it has been submitted but prior to the close of the phase and receive a full refund of the application fee?

Will the Sunrise phase support the same number of registrations/renewals years as General Availability?

Please confirm that the ITAR environment will simulate the end of each Sunrise Phase, including the awarding and denial of text domains.

Can claim checks be submitted through the direct period?
Please confirm that no restrictions exist for IDN domains that differ from an ASCII registration.

What languages are supported? Please provide specific language tags required for each language and the commands that require a language tag.

Product - General Questions
Please confirm that there will be no command rate limiting during General Availability. Command rate limiting means that the Registry will only allow 10 availability check commands per time frame (e.g. minute).

Product - Domain Monetization
Please confirm that domains can be parked at any time during the domain life cycle.

Product - Domain Life Cycle
See the image #1 at the bottom of the page of the Domain Life Cycle as a reference.
Please confirm that the domain life cycle for your TLD specifically for the following:
- Registration grace period will be 3 days
- Expired renewal grace period will be 5 days
- Redemption grace period following a delete will be 30 days
- Pending delete period following redemption period will be 5 days
- After expiration auto renewal grace period will be 65 days
- Transfer grace period will be 5 days

Please confirm the domain auto renew on the registration date.
Please confirm the domain will not be parked by the Registry at expiration or any other time in the domain life cycle.
Please confirm all grace periods and corresponding end dates will appear in the response to a domain:info command.
Please confirm that no server locks will be applied to a domain prior to expiration.
Please confirm that all redemptions will be supported by EPP.
Please provide an EPP redemption command example (see example on adjacent tab)
Are redemption requests required? (A sample Redemption Report example is shown on the adjacent tab.)
Please confirm that expired domain's anti-abusive can be supported and that domains will be deleted immediately at the Registry.
Please confirm that explicit deletes and explicit renews are supported and that domains will be removed immediately at the Registry.

Product - Transfers
GoDaddy prefers to have transfers processed as outlined below in chronological order. Please confirm the following steps within the process:
- Pending transfer is submitted to the Registry.
- The gaining Registrar must complete the transfer request at the Registry within 5 business days.
- Once the transfer is confirmed, the gaining Registrar will place the domain back in the available pool.

Product - OT&E Environment
Registering OT&E environments will be allowed in the following phases:
- OT&E environments will be allowed in the GoDaddy test environment.
- OT&E environments will be allowed in the live environment.

Product - Landrush Details
Will you be offering a Landrush phase?

Product - Landrush - Details (Only required if planning a Landrush Phase)
What are the dates and times for the Landrush Phase for each of your TLDs?

Product - Landrush - General
What are the dates and times for the opening of General Availability for each of your TLDs?

Product - Landrush - Specific
What are the dates and times for the opening of specific availability for each of your TLDs?

Product - Landrush - Transfer
What are the dates and times for the opening of transfer availability for each of your TLDs?

Product - Landrush - Redemption
What are the dates and times for the opening of redemption availability for each of your TLDs?

Product - Landrush - Server Lock
What are the dates and times for the opening of server lock availability for each of your TLDs?

Product - IDNs
Are second level IDNs supported?

Product - IDN Details (Only required if IDNs are supported)
What are the dates and times for the Landrush Phase for each of your TLDs?

(TLD name as a secondary V and time as UTC; for example 8-10-2015 06:00:00)

(TLD name as a secondary V and time as UTC; for example 8-10-2015 06:00:00)

(TLD name as a secondary V and time as UTC; for example 8-10-2015 06:00:00)
Please confirm that the life cycle of an DNS domain will not differ from the life cycle of an ASCII domain.

**Product - DNSSEC**

Will the Registry require DS data for DNSSEC?

**Product - DNSSEC: key data**

Please confirm that the values in image #2 at the bottom of the page are supported for key data. The table references RFC specifications for DNSSEC 1.1 for key data.

**Product - DNSSEC: ds data**

Please confirm that the values in image #3 at the bottom of the page are supported for ds data. The table references RFC specifications for DNSSEC 1.1 for ds data.

Please confirm that DNSSEC zone file configuration of the domain is not required prior to sending DNSSEC EPP commands.

What is the maximum number of DNSSEC records allowed per domain?

If not supported at launch, please indicate when you expect to support DNSSEC.

**Product - Host Objects**

Do you support host-objects?

**Product - Host Objects - Details (Only required if Host Objects are supported)**

What is the minimum length of a host?

What is the maximum length of a host?

What is the minimum number of nameservers?

What is the maximum number of nameservers?

Please indicate the number of nameservers required in order for a domain to resolve.

How many nameservers can be deleted when a host-object of the domain is being used as a nameserver by another domain?

Please confirm that a zone configuration is not required to be verified by the Registry prior to the registration of a domain name or a domain update.

Please confirm that IPv6 addresses are supported.

What are the maximum number of IPs that can be listed with a single host-object?

What are the maximum number of IPs that can be listed against a single host-object?

Can duplicate IPs be listed against different host-objects for the same domain?

Can duplicate IPs be listed for a single host-object?

**Product - Host Attributes**

Will host attributes be implemented for your TLD?

**Product - Host Attribute - Details (Only required if Host Attributes are supported)**

What is the minimum number of nameservers?

What is the maximum number of nameservers?

How many nameservers will be allowed?

Please confirm that the number of nameservers required in order for a domain to resolve.

Please confirm that a zone configuration is not required to be verified by the Registry prior to the registration of a domain name or a domain update.

Please confirm that IPv6 addresses are supported.

What is the minimum length of a nameserver?

What is the maximum length of a nameserver?

Please confirm that a nameserver can be updated by its owner when the host attribute is linked to another domain name.

Do foreign, local or child nameservers require an IP address?

For example, domain name = godaddy.com
Foreign- w1.godaddy.net
Local- w1.wildwest.com
Child- w1.wildwest.com
Foreign nameserver:
Local nameserver:
Child nameserver:

Can a child host nameservers be removed?

How many IPs are required with a child nameserver?

How many IPs can be listed with a child nameserver?

Can the same IP be listed multiple times for a single child nameserver?

Can the same IP be listed between different child nameservers?

**Product - Contacts**

Please confirm which contacts are required to register a domain (Registrant, Technical, Administrative, Billing) for all events below.

Registrant:
Technical:
Administrative:
Billing:

Additional contact required:

Please confirm that contact information can be updated at any time without a fee.

Please confirm that proxy contacts will be allowed on the domain for the purposes of providing WHOIS privacy services.

Please confirm that contact WHOIS will be allowed to be shared across multiple domains.

Please confirm that TLD country code will be used.

Please confirm that we can create and update our own RIRIDs for contact objects.

Please confirm that we can create and update attributes codes for contact objects.

Please confirm that all contact information will be returned in the EPP check command.

What kind of support is available for querying domains that are registered by a different registrar when sending in a RIRID?

What kind of support is available for querying domains that are registered by a different registrar when sending in a RIRID and authcodes?

What kind of support is available for querying contact records that are registered by a different registrar when sending in a RIRID?

What kind of support is available for querying contact records that are registered by a different registrar when sending in a RIRID and authcodes?

Please confirm that the EPP environment will not be parked in all phases.

**Product - Registrant Updates**

Please confirm that registrant name changes are not a billable transaction and do not require approval by the original and new Registrant.

**General - ICANN UDRP Process**

Godaddy supports the ICANN UDRP dispute resolution process will be used. If there are other dispute resolution details for consideration, please provide.

**General - EPP**

Please confirm that EPP ICANN will be supported.

Please provide an example of an EPP command to retrieve the account balance of the Registrant.

Please provide us a registration “happy path” by defining a proven working example of the contact:create (registrant) EPP command, using data that accounts for all business rules and passes all validation tests.

Please provide us a registration “happy path” by defining a proven working example of the contact:update (registrant) EPP command, using data that accounts for all business rules and passes all validation tests.

Please provide us a registration “happy path” by defining a proven working example of the contact:create (non-registrant) EPP command, using data that accounts for all business rules and passes all validation tests.

Please provide us a registration “happy path” by defining a proven working example of the contact:update (non-registrant) EPP command, using data that accounts for all business rules and passes all validation tests.

Please provide us a registration “happy path” by defining a proven working example of the domain:create EPP command, using data that accounts for all business rules and passes all validation tests.

Please provide us a registration “happy path” by defining a proven working example of the domain:update EPP command, using data that accounts for all business rules and passes all validation tests.
