D.Pacella, [Verizon](#)

T.Saad, [Cisco Systems](#)

CHANGES

- Changed the title.
- Editorial Nits:
 - Explicitly state the CAPABILITY object pre-requisite.
 - Add reference to the Appendix.
 - Add abbreviation for “Periodic Retransmission Interval for unacknowledged Path/Resv messages”.
 - Accept/Acknowledge Elwyn’s text suggestions (to improve readability).

DISCUSSION ON MAILING-LIST

- Document “Updates” attribute.
- Continue retransmission of unacknowledged Path/Resv messages after “RI” is reached.
- Default behavior.
- Deactivation of “Refresh-Reduction” capability.

NEXT STEP

- Get the IESG Reviews approved.
