WG Document Status

Compiled By: Matt Hartley, Lou Berger, Vishnu Pavan Beeram

draft-ietf-teas-assoc-corouted-bidir-frr

- From: Rakesh Gandhi (Nov 10th '17).

- Revision -02 (Nov 13th '17):
  - Aligned with RFC8271.
  - Added a section on one-to-one protection.

- Open Issues:
  - None.

- Next Steps:
  - Looking for further review/suggestions.

draft-ietf-teas-pcecc-use-cases

- From: None.

- No changes to the draft since the last IETF.

- From previous status-update (July 17th):

  - "Working on one additional use case; plan is to include in the next version in few weeks. It will be also in TE LSP section so no significant changes."

draft-ietf-teas-te-metric-recording

- From: Zafar Ali (Nov 13th, 2017)
- Revision -06 (Nov 13th, 2017)
  - Brought the document back to life.
- Open Issues:
  - Comments received from Pavan (June 6th, 2016) on the list are yet to be addressed.
- Next Steps:
  - Address outstanding comments.
  - Align with RFC8001.
