Keyur Patel (Arrcus), Derek Yeung (Arrcus),
J. Drake (Juniper), W. Lin (Juniper)

IETF 101, March 2018

London

Changes since Rev00

- Expanded terminology section

- Reduced "Selective Multicast Procedures" to that of IR and removed the paragraphs dealing with P2MP tunnels – they are covered in "bum procedures" draft

- Removed multiple tunnel type discovery – will be covered separately

- Tidy up the draft in several places

Status

- It has been around for 2.5 years

- It has been implemented by multiple vendors

- It is ready for WG LC

Next Step

- Requesting WG LC
