

L2VPN Yang Data Model Update

- L2VPN instance is now referenced by Network instance model

```
module: ietf-l2vpn  
augment /ni:network-instances/ni:network-instance/ni:ni-type:  
  +--:(l2vpn)
```

- Attachment Circuit now references interface

```
+--rw (ac-or-pw-or-redundancy-grp)?  
| +--:(ac)  
|   +--rw ac* [name]  
|     +--rw name      if:interface-ref  
|     +--ro state?    operational-state-type
```
