Note thee well

Verily, what follows is a reminder of ye IETF policies in effect on various topics such as patents or code of conduct. Forsooth, this dispensation endeavours only to point thee in the just and righteous direction. Ware thee, exceptions may apply. Ye IETF's patent policy and the definition of an IETF "contribution" and "participation" are set forth in BCP 79; we entreat thee to read it with care.

As a reminder:

- By participating in the IETF, thee agreeth to follow IETF processes and policies.
- If thou is aware that any IETF contribution is covered by patents or patent applications that are beholden to thee or thine sponsor, thee disclose that fact, or not participate in the discussion.
- As a participant in or attendee to any IETF activity thou acknowledgest that written, audio, video, and photographic records of meetings may be made public.
- Personal information that thou providest to IETF will be handled in accordance with the IETF Privacy Statement.
- As a participant or attendee, thou agrees to work respectfully with other participants; please contact the ombudsteam (<https://www.ietf.org/contact/ombudsteam/>) if you have questions or concerns about this.
