

DOTS Architecture

<https://tools.ietf.org/html/draft-ietf-dots-architecture>

IETF 101

Presenter: Andrew Mortensen

Overview

- Changes in -06 revision
- Obstacles to WGLC

Changes in -06 revision

- Add NAT considerations section

NAT considerations

- RFC8085 covers NAT keep-alives for UDP
- Mapping attacked internal addresses to public mitigation scope

Mapping internal-to-external mitigation scope

- Direct provisioning of external/internal map
- STUN Binding request/response
- DNS names

Obstacles to WGLC

- Feedback on NAT considerations
- No other open issues

Thank you
