

Internet Engineering Task Force Newcomers' Overview

March 2018

<https://www.ietf.org/>

Welcome to the IETF!

Thanks to Scott Bradner and Mike St.Johns for earlier versions of this presentation.

<https://www.ietf.org/about/note-well/>

IETF Note Well

This is a reminder of IETF policies in effect on various topics such as patents or code of conduct. It is only meant to point you in the right direction. Exceptions may apply. The IETF's patent policy and the definition of an IETF "contribution" and "participation" are set forth in BCP 79; please read it carefully.

As a reminder:

- By participating in the IETF, you agree to follow IETF processes and policies.
- If you are aware that any IETF contribution is covered by patents or patent applications that are owned or controlled by you or your sponsor, you must disclose that fact, or not participate in the discussion.
- As a participant in or attendee to any IETF activity you acknowledge that written, audio, video, and photographic records of meetings may be made public.
- Personal information that you provide to IETF will be handled in accordance with the IETF Privacy Statement.
- As a participant or attendee, you agree to work respectfully with other participants; please contact the ombudsteam (<https://www.ietf.org/contact/ombudsteam/>) if you have questions or concerns about this.

<https://www.ietf.org/about/note-well/>

IETF Note Well (cont.)

Definitive information is in the documents listed below and other IETF BCPs. For advice, please talk to WG chairs or ADs:

- BCP 9 (Internet Standards Process)
- BCP 25 (Working Group processes)
- BCP 25 (Anti-Harassment Procedures)
- BCP 54 (Code of Conduct)
- BCP 78 (Copyright)
- BCP 79 (Patents, Participation)
- <https://www.ietf.org/privacy-policy/> (Privacy Policy)

<https://www.ietf.org/how/meetings/101/newcomers>

Newcomer Activities @ IETF 101

- Newcomer's tutorial ... (12:30 – 13:30, Sunday March 18)
- IETF Quick Connections (15:00 – 16:00, Sunday March 18)
 - Short one-on-one conversations with experienced IETFers
- Newcomer's Meet and Greet (16:00 - 17:00, Sunday March 18)
 - Newcomers and IETF Leadership (WG Chairs, ADs, IAB)
- Mentoring <https://www.ietf.org/about/participate/mentoring/>
- Newcomer's Dinner (Monday evening March 19)
 - Informal dinner for newcomers to chat

<https://www.ietf.org/about/participate/>

Scope: Preparing for an IETF Meeting

This presentation includes:

- Information immediately useful to you as you attend your first(ish) IETF meetings
- Strategies to make the most of the meeting (whether in person or remote)

This presentation does not include information about:

- The history of the IETF; How to write a “standard”; and many other things...

The IETF YouTube channel has a playlist with information about all these topics (and more:

<https://www.youtube.com/playlist?list=PLC8CT-CZTR5FYD1-4mU-1570D115N15TMA>

The IETF and Related Organizations

<https://www.ietf.org/about/mission/>

IETF Mission

The mission of the IETF is to make the Internet work better by producing high quality, relevant technical documents that influence the way people design, use, and manage the Internet.

[[RFC 3935](#)]

The IETF is ...

- A Standards Development Organization (SDO)
- With self-selected individual participants, no formal membership
- No formal voting (but we do hum...)
- No formal government role
- Driven by market-based adoption (a *real* standard is one people use)
- Focused on Internet technologies
- Bottom-up... and unique!

IETF Areas

Applications and Real-Time (ART)

- Application protocols and architectures
- Real-time (communication) and non-real-time

Transport (TSV)

- Mechanisms related to data transport on the Internet
- Includes congestion control

Routing (RTG)

- Routing and signaling protocols

Internet (INT)

- IPv4/IPv6, DNS, DHCP, VPNs, mobility

Operations and Management (OPS)

- Network management
- Operations: IPv6, DNS, security, routing

Security (SEC)

- Security protocols and mechanisms, including cryptography

General (GEN)

- Activities focused on supporting and updating IETF processes

The IETF and Consensus

- IETF mantra:
 - “We reject kings, presidents and voting. We believe in rough consensus and running code.”
- Rough consensus is achieved when all issues are addressed, but not necessarily accommodated
- Dissenting opinions are heard, but are not controlling
- Humming: a way of measuring consensus that is not voting
- Session chair is responsible for building consensus
- WG mailing list consensus has to be taken into account
- “On Consensus and Humming in the IETF”, P. Resnick,
<https://tools.ietf.org/html/rfc7282>

IETF Culture

Passionate, smart, vocal people

Technical excellence is highly valued

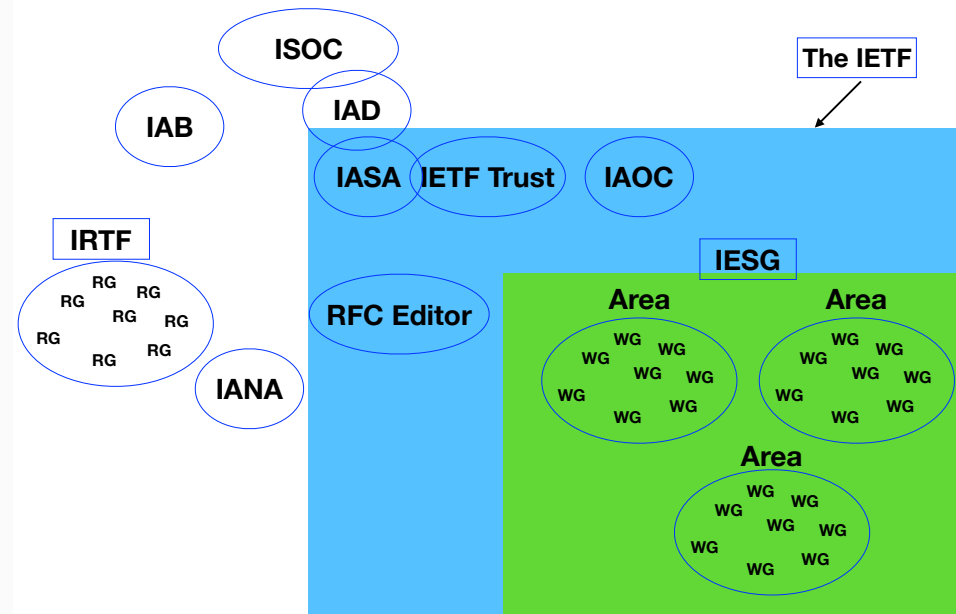

Informal dress code (people LOVE t-shirts)

Close working relationships (people know each other)

Alphabet soup

- Internet **E**ngineering **S**teering **G**roup
- Internet **A**rchitecture **B**oard
- Internet **R**esearch **T**ask **F**orce
- IETF **A**dministrative **S**upport **A**ctivity
- IETF **A**dministrative **O**versight **C**ommittee
- IETF **A**dministrative **D**irector
- Internet **S**ociety

Who does what?

- **IAB:** provides oversight of the Internet architecture and the standards process
- **IESG:** responsible for technical management of IETF activities and the Internet standards process
- **IRTF:** a parallel organization focused on longer-term research topics for the Internet
- **IAOC:** is responsible for the fiscal & administrative support of the IETF standards process

IETF Week in a Nutshell

The IETF Meeting week

- Organized events include:
 - Working Group sessions: ~130 working groups
 - Birds of a Feather sessions (BOFs)
 - IRTF sessions: ~7
 - Area-wide sessions
 - IETF-wide plenaries
 - Hackathons (Code Sprints, etc)
 - Tutorials & Lunch Sessions
 - Social Events

IETF Meeting week (cont)

Other events include:

- Hallway meetings
- Many Bar BOFs
- Marathon Editing Sessions

The App is your friend!

The Agenda is your friend!

<https://datatracker.ietf.org/meeting/101/agenda.html>

Working Groups

- Where most of the IETF takes place
- Most work is done on mailing lists in between meetings
- Face-to-face meetings mostly focused on solving key issues
- Sessions are streamed & recorded
- Charter (including milestones) is negotiated with area director

Birds-of-a-Feather (BOF)

- Often precedes formation of a WG
- Usually includes discussion of a proposed WG charter
- Sometimes a one-shot for a timely topic
- Proposed by a group interested in a topic
- Approved by ADs
- Generally meet only once
- Some longer-term topics may meet as a

General Meeting Etiquette

- Read documents of interest before WG sessions
- Try to talk to people
- Enjoy yourself
- Remember to sleep!
- Behave respectfully and tolerantly towards the other participants

IETF Session Etiquette

- Speak directly into the mic
- Say your name every time you speak at the microphone
- Sign the “blue sheets” which provide a record of who is in the room (remote participants recorded as well)
- Listen
- Technical comments & questions are welcome
- Use the WG Jabber channel to discuss meeting-relevant topics

Internet Research Task Force

Officially an activity of the IAB

- Looks at more “researchy” topics
- IRTF RGs often meet at IETF meetings
- IRTF meetings at the IETF are open to all IETF attendees

Useful reference on the IRTF: RFC 7418
“An IRTF Primer for IETF Participants”
<https://www.rfc-editor.org/rfc/rfc7418.txt>

Area Sessions, Plenaries, and lunch talks

Hackathons, Code Sprints, Code Lounge

Networking and Social Events

The Resources

- People
- Information
- Tools

Key People

- IETF Secretariat
- RFC Editor
- IANA staff
- IAD

Coming Soon! Pictures!!!

The Ombudsteam

- Report any harassment to the ombudsteam (BCP 25)
<https://www.ietf.org/iesg/statement/ietf-anti-harassment-policy.html>
- Allison Mankin, Pete Resnick, Linda Klieforth

Dots & Ribbons (Who's Who!)

Working Group Chair

Internet Research Group (IRSG)
Member

Nominations Committee

RFC Series Editor

Internet Engineering Steering
Group (IESG) Member

IETF Administration and Oversight
Committee (IAOC) Member

Internet Architecture Board

Information

IETF Datatracker

<https://datatracker.ietf.org/>

The screenshot shows the IETF Tools page. At the top, it says "IETF Tools" and "IETF-related tools, standalone or hosted on tools.ietf.org." Below this, there are two main sections: "Prepare documents" and "Search, show and print documents". The "Prepare documents" section includes a sub-section "Convert .nroff for drafts and RFCs to RFC2629 format XML" and another "Edit IDs in .nroff with wysiwyg display". The "Search, show and print documents" section includes "PDF Conversions of drafts and RFCs" and "Download the latest documents". A sidebar on the left contains various navigation links like "IETF Home", "About Tools", "Tools", "News", "Get Passwd", "IETF-101", "Rooms", "Agenda", "Calendar", "Documents", "RFCs", "Doc fetch", "Wiki", and "NonCom".

The screenshot shows the IETF Datatracker page for "Transport Layer Security (tls)". The page has a navigation bar with "Datatracker", "Groups", "Documents", "Meetings", "Other", and "User". Below the navigation bar, there are tabs for "About", "Documents", "Meetings", "History", "Photos", "Email expansions", "List archive", and "Tools". The main content area is a table of documents. The table has columns for "Document", "Date", "Status", and "AD / IPR". The "Document" column lists several drafts, including "draft-ietf-tls-certificate-compression-02", "draft-ietf-tls-dnssec-chain-extension-06", "draft-ietf-tls-dtls-connection-id-00", and "draft-ietf-tls-dtls13-26". The "Date" column shows dates like "2018-01-26", "2018-01-23", "2017-12-27", and "2018-03-04". The "Status" column shows "I-D Exists" and "WG Document". The "AD / IPR" column shows "Shepherd" and "Kathleen Moriarty".

Tools Page

<https://tools.ietf.org/>

<https://www.ietf.org/how/meetings/101/remote>

Remote Participation

- Attendance at face-to-face IETF meetings is not required.
- IETF supports remote attendance capabilities for all WG sessions.
- Meetecho is the tool for remote participation!

The Meetecho team at IETF 83, (left to right) Lorenzo Miniero, Simon Romano, Tobia Castaldi, and Alessandro Amirante

<https://tickets.meeting.ietf.org/wiki/IETF101network>

The Network @ IETF

- The IETF runs its own network (including sometimes the primary hotel)
- Generally up by early Saturday and down around noon on Friday
- There are a number of wireless SSIDs available
- Avoid ietf-legacy if possible. It is unencrypted (enough said...)
- Secure networks use userid: “ietf” and password: “ietf”
- There’s also a terminal room with no terminals, but with printers and wired connectivity – AND PEOPLE WHO CAN HELP!

Jabber

The IETF uses eXtensible Messaging and Presence Protocol (XMPP) [RFC 6120] to host a number of chat rooms during the IETF meeting.

1. Get a client: <http://xmpp.org/software/clients.html>
2. Register an account: <https://list.jabber.at/>
3. Join a chat room, usually: <wgname>@jabber.ietf.org

Used to ask questions and provide a hint of where the discussion is at on slides for audio remote listeners.

Above all: Enjoy!
