# ECN SUPPORT IN QUIC

Ingemar Johansson Ericsson AB
ingemar.s.johansson@ericsson.com

# DETAILS

› Proposed additions to QUIC transport and recovery drafts
- https://github.com/quicwg/base-drafts/wiki/ECN-in-QUIC#suggested-additions-to-to-become-rfcs

› No major changes since Interim 18-01
- https://github.com/EricssonResearch/wg-materials/blob/master/interim-18-01/ecn.pdf

›

› DISCUSS(ES) :
- Connection migration:
  › QUIC ECN Wiki clarified (thanks to Koen and Gorry for the help)
- Feedback format (ACK_ECN frame):
  › I do believe that we have rough consensus that the proposed format is the best alternative and sufficient both for Classic RFC3168 style ECN as well as L4S ?

# WAY FORWARD

› Are there any open issues ?

› Create pull-requests with proposed additions to transport and recovery draft
