

# **GRASP Application Programming Interface**

**draft-ietf-anima-grasp-api-02**

**Brian Carpenter (editor)**  
**Bing Liu (editor)**  
Wendong Wang  
Xiangyang Gong

**IETF 102**  
**July 2018**

# Reminder: model

# Changes since IETF 101

- Additional suggestion for event-loop API:
  - Add a **notify**( ) call to inform event loop that at least one session has changed state
- Discussion point on possible alignment of error code values with socket API error codes

# Need feedback

- Need help on mapping to C
  - Early draft of header file at <https://github.com/becarpenter/graspy/blob/master/graspi.h>
- Need implementation feedback

# Discussion + next steps

- Comments? Questions?
