

# Use cases for DDoS Open Threat Signaling

draft-ietf-dots-use-cases-15

# History

IETF101 Tuesday March 20 commitment to have the use case draft sent to WGLC within a month.

- 2018-03-28 version 11
- 2018-04-15 version 12
- **2018-06-15 WGLC started**
- 2018-06-27 version 13
- 2018-07-17 version 14
- 2018-07-18 version 15
- 2018-07-19 version 16

# Updates

Number of use cases were reduced to 3

<a href="#">3.</a>	Use Cases .....	<a href="#">3</a>
3.1.	Upstream DDoS Mitigation by an Upstream Internet Transit Provider .....	<a href="#">3</a>
3.2.	DDoS Mitigation by a Third Party DDoS Mitigation Service Provider .....	<a href="#">7</a>
<a href="#">3.3.</a>	DDoS Orchestration .....	<a href="#">9</a>

No major change of the content

More reviews during the WGLC than expected : Thanks you for the reviewers.

The current version seems to have reached consensus.....

Are we ready to send it to the IESG ?

Thanks!
