# draft-ietf-mptcp-rfc6824bis
Update

v10 -> v11

Removing/Moving dependencies on experimental parts

- Removed Section 3.7. MPTCP Experimental Option

- Moved Section 3.11. TCP Fast Open to the Appendix

WGLC comments
ADD_ADDR Echo-flag

- Can an attacker echo the ADD_ADDR to indicate successful delivery?

WGLC comments
Adding backup-bit to ADD_ADDR?

ADD_ADDR
S2, ID=X

MP_PRIO
ID=X, Backup

S1

Client

Server

S2

- v9 removed the address-ID from MP_PRIO (protect against attacker injecting MP_PRIO for other paths)
