

# SACM Architecture Redux

Montville & Munyan

IETF 102

00 → 01

- Focus on architecture discovery
- Added some text about SACM Roles
- Added Components, Capabilities, Interfaces, and Workflows
- Completed appendix mapping to RFC8248
- Added appendix of example components

# Questions

- Is the taxonomy of Components in Section 4.1 about right?
- Are the workflows in Section 4.4 about right?
- Are the mappings in Appendix A reasonable to you?
- Do folks in the working group find this work useful?
  - If so, do we adopt the draft?
