Update on draft-irtf-icnrg-mapme-02*

Jordan Augé, Giovanna Carofiglio, Luca Muscariello, Michele Papalini

(*) ill-named, not a WG draft

draft-irtf-icnrg-mapme-02
Update on progress

UPDATED DRAFT [01 -> 02]

- Usual clarifications / typos…

- Simpler algorithms, esp. retransmission management
  - Removed timer information from TFIB

- Clarified face management
  - How to synchronize faces with underlying adjacencies
  - Description was limited to L2 faces (not including tunnels, hICN, etc.)

RELATED PROGRESS

- MAP-Me now implemented for hICN in socket-based and VPP-based forwarders
  - The main reason for simplification & performance improvements
  - Open-source release in preparation

Perspectives

- More feedback
  - What is missing for adaption in a WG document
  - Anyone interested in using it ?

- We will likely be present at next IETF meeting
  - ML exchange in the mean time
