Note Well

This is a reminder of IETF policies in effect on various topics such as patents or code of conduct. It is only meant to point you in the right direction. Exceptions may apply. The IETF's patent policy and the definition of an IETF "contribution" and "participation" are set forth in BCP 79; please read it carefully.

- By participating in the IETF, you agree to follow IETF processes and policies.
- If you are aware that any IETF contribution is covered by patents or patent applications that are owned or controlled by you or your sponsor, you must disclose that fact, or not participate in the discussion.
- As a participant in or attendee to any IETF activity you acknowledge that written, audio, video, and photographic records of meetings may be made public.
- Personal information that you provide to IETF will be handled in accordance with the IETF Privacy Statement (<https://ietf.org/privacy-statement/>).
- As a participant or attendee, you agree to work respectfully with other participants; please contact the ombudsteam (<https://www.ietf.org/contact/ombudsteam/>) if you have questions or concerns about this.
- Definitive information is in the documents listed below and other IETF BCPs. For advice, please talk to WG chairs or ADs:
 - [BCP 9](#) (Internet Standards Process)
 - [BCP 25](#) (Working Group processes)
 - [BCP 25](#) (Anti-Harassment Procedures)
 - [BCP 54](#) (Code of Conduct)

Document Review Request

- Document quality relies on reviews, please review documents in your working group and at least one other document from another working group.
- If you'd like documents you care about reviewed, put the effort in to review other documents.
- Please volunteer to be a document shepherd.

Agenda

1. Welcome and Introductions
2. Existing Document Status
3. Human Rights Review
4. New candidate documents for adopting
5. WG Adoption discussion and Milestone review
6. AOB

Agenda

1. Welcome and Introductions

- i. Jabber scribe**
- ii. Notes scribe**
- iii. Charter update (2 minutes)**
- iv. Document management**

Charter Update

- EPP and RDAP extensions for standards track
- Expert review for extension registry
- Principal Change:

The working group may also take on work to develop specifications that describe the following types of information exchanged between entities involved in Internet identifier registration that are using the RDAP or EPP protocols:

- * Uniform representation formats for publishing local policy or configuration options regarding EPP and RDAP use.
- * Data formats for files exchanged between registration entities that need insertion in or extraction from EPP or RDAP.
- * Technical guidance for registration processes that are supported by EPP or RDAP.

Adoption and Milestones

- Existing milestones
 - **Submit for publication an informational RFC with requirements for a registration protocol for third-party DNS providers**
 - **Submit for publication "Validate Mapping for the Extensible Provisioning Protocol"**
 - *Submit for publication "EPP Domain Name Mapping Extension for Bundling Registration"*

Questions to WG

- 1. How many open milestones should we allow ourselves to have?
- 2. Do we want to reconsider any currently open milestones?
- 3. Of the 8 documents being proposed for adoption, which ones are the priorities, i.e., the documents we want to adopt first?
