- Editorial changes
- Metric and Preference

# Metric and Preference

```
,  
leaf set-metric {  
    type uint16;  
    description  
        "Set a new metric for the route."  
}  
leaf set-preference {  
    type uint8;  
    description  
        "Set a new preference for the route."  
}
```

```
leaf set-metric {  
    type uint32;  
    description  
        "Set a new metric for the route."  
}  
leaf set-preference {  
    type uint16;  
    description  
        "Set a new preference for the route."  
}
```

## Next Steps

- Collect/address comments
- Request YANG Doctor review
