GitHub

- Status
  - TAPS docs are being written in GitHub (not a WG repo yet)
  - Energetic collaboration by a small group
  - Occasional export of topics to email list

- IETF best practices and tools are still evolving
  - Common naming conventions
  - WG chair-owned org
  - Repo per doc

- Discuss
  - Should we continue to use GitHub?
  - How should we handle topic discussions?
  - Volunteers to keep up with evolving tools?
