6MAN Working Group
IETF 104, Prague

Bob Hinden
Ole Trøan
Note Well

This is a reminder of IETF policies in effect on various topics such as patents or code of conduct. It is only meant to point you in the right direction. Exceptions may apply. The IETF's patent policy and the definition of an IETF "contribution" and "participation" are set forth in BCP 79; please read it carefully.

As a reminder:

- By participating in the IETF, you agree to follow IETF processes and policies.
- If you are aware that any IETF contribution is covered by patents or patent applications that are owned or controlled by you or your sponsor, you must disclose that fact, or not participate in the discussion.
- As a participant in or attendee to any IETF activity you acknowledge that written, audio, video, and photographic records of meetings may be made public.
- Personal information that you provide to IETF will be handled in accordance with the IETF Privacy Statement.
- As a participant or attendee, you agree to work respectfully with other participants; please contact the ombudsteam (https://www.ietf.org/contact/ombudsteam/) if you have questions or concerns about this.

Definitive information is in the documents listed below and other IETF BCPs. For advice, please talk to WG chairs or ADs:

- [BCP 9](https://www.ietf.org/rfc/rfc4919.txt) (Internet Standards Process)
- [BCP 25](https://www.ietf.org/rfc/rfc5026.txt) (Working Group processes)
- [BCP 25](https://www.ietf.org/rfc/rfc5026.txt) (Anti-Harassment Procedures)
- [BCP 54](https://www.ietf.org/rfc/rfc5845.txt) (Code of Conduct)
- [BCP 78](https://www.ietf.org/rfc/rfc7417.txt) (Copyright)
- [BCP 79](https://www.ietf.org/rfc/rfc7417.txt) (Patents, Participation)
- [https://www.ietf.org/privacy-policy/](https://www.ietf.org/privacy-policy/) (Privacy Policy)

</table>
Agenda Requests Received, but not scheduled due to time and/or priority

- Service-aware IPv6 Network, draft-li-6man-service-aware-ipv6-network, Zhenbin Li.
- The length of the prefix of an IPv6 link-local address ranges from 10 to 127, draft-petrescu-6man-ll-prefix-len, Alexandre Petrescu.
- Discovering Provisioning Domain Names and Data, draft-ietf-intarea-provisioning-domains, Eric Vyncke.
- IPv6 Router Advertisement Option for Network Boot, draft-qin-6man-nb-option, Charles Qin.
Document Status

https://datatracker.ietf.org/group/6man/documents/

Published RFCs:
RFC8504 IPv6 Node Requirements
RFC8507 Simple Internet Protocol (SIP) Specification

RFC-Editor Queue:
-

WGLC:
IPv6 Segment Routing Header (SRH) (since 2018-03-29)
<draft-ietf-6man-segment-routing-header-16>

IPv6 Router Advertisement IPv6-Only Flag (since 2018-09-12)
<draft-ietf-6man-ipv6only-flag-05>
Document Status II

https://datatracker.ietf.org/group/6man/documents/

Working group documents:
[Expired] ICMPv6 errors for discarding packets due to processing limits <draft-ietf-6man-icmp-limits-00>

Privacy Extensions for Stateless Address Autoconfiguration in IPv6 <draft-ietf-6man-rfc4941bis-00>draft-pref64folks-6man-ra-pref64-02

Discovering PREF64 in Router Advertisements <draft-pref64folks-6man-ra-pref64-02>
Use of git / github for documents

Pros:

- Fine grained revision control
- [https://github.com/ietf-6man/](https://github.com/ietf-6man/)
- Focus discussions on document changes
- Shifting control to the working group
- Integration with CI tools for producing documents

Cons:

- Discussions that should have gone to the mailing lists end up as pull requests
- Experiment for now
- New tool to learn
Github: If you want to do it:

- Attend the Tutorial: GitHub Tools on Sunday
- Attend Thursday's GitHub Integration and Tooling

- draft-ietf-git-github-wg-configuration
- draft-thomson-git-using-github

Other authors please consider moving your drafts!
