Web Packaging

github.com/WICG/webpackage/

Use Cases
- Share websites P2P while offline
- Fix AMP
- Avoid the Slashdot effect
- Binary Transparency
- Optimize downloads
- etc.

Signed Exchanges
- Signs req URL, conneg, response
- Links to TLS-like certificate
- <= 7-day expiration
- Update/live-verification mechanism
- Security risks!

Bundles
- Zip-like format for HTTP resources
- Signatures of groups of resources

Chrome 73
