

IETF Meetings Rock

- But.... Routine international travel is bad for:
 - The world's climate
 - Your body's health
 - Various budgets
 - Family Life
- Is it time to work toward virtual IETF meetings?
 - (really this time)

Current Solution Models

- Past thinking has revolved around reproducing this:

	Monday	Tuesday	Wednesday	Thursday	Friday
AM	SEC, TSV, APP, INT, ...				
PM 1	SEC, TSV, APP, INT, ...				
PM 2	SEC, TSV, APP, INT, ...				
PM 3	SEC, TSV, APP, INT, ...				
Evening	SEC, TSV, APP, INT, ...	Social	Plenary	Misc	

- IMHO: time to think outside the box

Needs of a New Solution

- New directions
- New people and groups
- New requirements
- New frame of mind
- Revolution, not evolution

- Commitment

One Example: Re-thinking Virtual

	All Week
5 days, 24 hours	Sec WG 1
5 days, 24 hours	Sec WG 2
5 days, 24 hours	Ops WG 1
5 days, 24 hours	Ops WG 2
5 days, 24 hours	INT WG 1
5 days, 24 hours	INT WG 2
5 days, 24 hours	APPS WG 1
5 days, 24 hours

Goal: thinking about being time zone ambivalent!!

One Example: Discussion Parameters

- Virtual mic-lines
 - Reproduce face-to-face
 - Interaction forms:
 - video, audio, text
 - Limits on posts:
 - Posts / WG meeting / day
 - Comment length
 - ??

URL

WG 1

- Brook: Presentation
 - Pat: Question 1
 - Alex: Discussion issue 1
 - Charley: response to issue 1

WG 2

- Alex: Presentation
 - Charley: Opinion
 - Charley: Counter Opinion
 - Alex: Suggested compromise

Next Steps

- Needs:
 - Out of the box thinkers
 - **Revolution not Evolution**
 - (Lots) of people
 - Willing WGs to do trial interims
 - A place to hold discussions (many-couches?)
- Interested?
 - DOGFOOD discussion:
 - Tuesday 8:30pm @ Mezzanine bar
 - Mail hardaker@isi.edu
