

ROLIE CSIRT

draft-ietf-mile-rolie-csirt-00

Status

Draft just reposted.

One last todo – make format section better (based on software descriptor extension)

Ready for last call

Option A

Last call document as-is

Pro:

Done faster

Option B

Split document into IODEF and STIX specific versions

Pro:

More domain specific text

ROLIE Vulnerability

Thoughts?

Covers Common Vulnerability Enumeration (CVE), NISTIR 8138: Vulnerability Description Ontology

- Others, if interest

Do you think vulnerability information sharing is worth doing here?
