Notes on networking standards and politics

draft-irtf-hrpc-political-03

Niels ten Oever – University of Amsterdam

Objective (for this doc)**:**

- Documenting long-standing discussion in hrpc
- Documenting positions in the community
- Documenting positions in scientific literature on this topic
- Provide a platform to further the discussion without having to repeat it

Non-Objectives (for this doc)**:**

- Provide an exhaustive analysis of everything possible
- Provide new guidelines / considerations

Overview of changes since -01

a) Integrated comments based on review by Michael Rogers and Julia Guerra
b) Simplified Research Question
c) Removed recommendations
d) Removed secondary / indirect arguments:
   – IETF finance
   – Interoperability
   – layer competition
e) New abstract
f) Removed definitions of protocols and standards
g) Added methodology text
h) Many typos
