

## Synonymous Flow Label – drafts

**draft-ietf-mpls-sfl-framework**  
**draft-bryant-mpls-sfl-control**  
**draft-ietf-mpls-rfc6374-sfl**

# The SFL drafts has stalled

- We have three SFL drafts
  - Two working group documents
  - One individual
  - The support for progressing them have been good
- The main author has changed work
  - No time or financing to continue working with the documents
  - SFL is no longer a prioritized technology
- We want to find new editors
  - Talk to the chair
