

# ***Suppress Intermediates***

*draft-thomson-tls-sic-00*

*Martin Thomson, IETF 105, Montreal*

# *Better compression*

draft-ietf-tls-certificate-compression promises 3x compression

Get similar benefits with much less code

If intermediates are already available, don't send them

Some servers already do this! (w/o sending the extension)

Uses draft-nir-tls-flags, so we need to finish that first
