Note Well

This is a reminder of IETF policies in effect on various topics such as patents or code of conduct. It is only meant to point you in the right direction. Exceptions may apply. The IETF's patent policy and the definition of an IETF "contribution" and "participation" are set forth in BCP 79; please read it carefully.

As a reminder:

- By participating in the IETF, you agree to follow IETF processes and policies.
- If you are aware that any IETF contribution is covered by patents or patent applications that are owned or controlled by you or your sponsor, you must disclose that fact, or not participate in the discussion.
- As a participant in or attendee to any IETF activity you acknowledge that written, audio, video, and photographic records of meetings may be made public.
- Personal information that you provide to IETF will be handled in accordance with the IETF Privacy Statement.
- As a participant or attendee, you agree to work respectfully with other participants; please contact the ombudsteam (https://www.ietf.org/contact/ombudsteam/) if you have questions or concerns about this.

Definitive information is in the documents listed below and other IETF BCPs. For advice, please talk to WG chairs or ADs:

- BCP 9 (Internet Standards Process)
- BCP 25 (Working Group processes)
- BCP 25 (Anti-Harassment Procedures)
- BCP 54 (Code of Conduct)
- BCP 78 (Copyright)
- BCP 79 (Patents, Participation)

eventpub

- URIs are the main point of contention.
  - Risk of abuse
- Notes from interim meeting:
  - v16 will go up later today with support for multiple locations
  - next step: immediate working group last call

jscalendar

- In last call for main spec

- Translation doc will come later as an informational rfc.

- Implementation experience in a couple of places now.

subscription upgrade

- Notes from interim meeting:
  - needs minor updates, will get done this week
  - next step: working group last call
- Q: recurrence overrides and STATUS:DELETED? How do they interact.

valarm extensions

- Running code: has been shipping with Apple devices for years.

- Notes from interim meeting:
  - Daniel will loop around to geopriv people for comment on location alarms
  - Document needs to be updated to explain why geopriv issue is mitigated
  - Ken expects to have an update for that in the next two weeks.
  - After that, last call!

series

- Mike to discuss from remote.
- Notes from interim meeting:
  - Current draft is expired
  - There was some discussion, it clearly needs some work.
  - Next step: call for adoption immediately, upload with working-group file name if adopted, then work on detail.

vpoll

- Ken and Mike to discuss from remote.
- Notes from interim meeting:
  - What's there clearly works now
  - Definitely want to replace VVOTER with PARTICIPANT
  - Ken will help Mike rewrite to split core and basic mode
  - Implementation status: multiple compatible implementations, it's been shown to work in testing, but they'll all need to be updated! - Want to make sure nobody starts shipping before we've made the direction changes we want!
  - Next steps: new draft showing which direction we're taking it, then circle back to collect feedback and test again.
