DNS-SD Privacy and Security Requirements

Christian Huitema, Daniel Kaiser

draft-ietf-dnssd-prireq-02

IETF 106, Singapore, November 2019

DNS-SD Privacy and Security Requirements

- Work started a LONG time ago
  - draft-huitema-dnssd-privacy-00 -- March 9, 2016
  - WG adoption, lots of revisions until October 2018, WG last call, etc.
  - No real consensus on solution.
- Excised "requirement" part in June 2018
  - WG presentation, adoption
 - WG last call just finishing
- Are we done yet?

# Public Discovery, with MDNS/DNSSD today
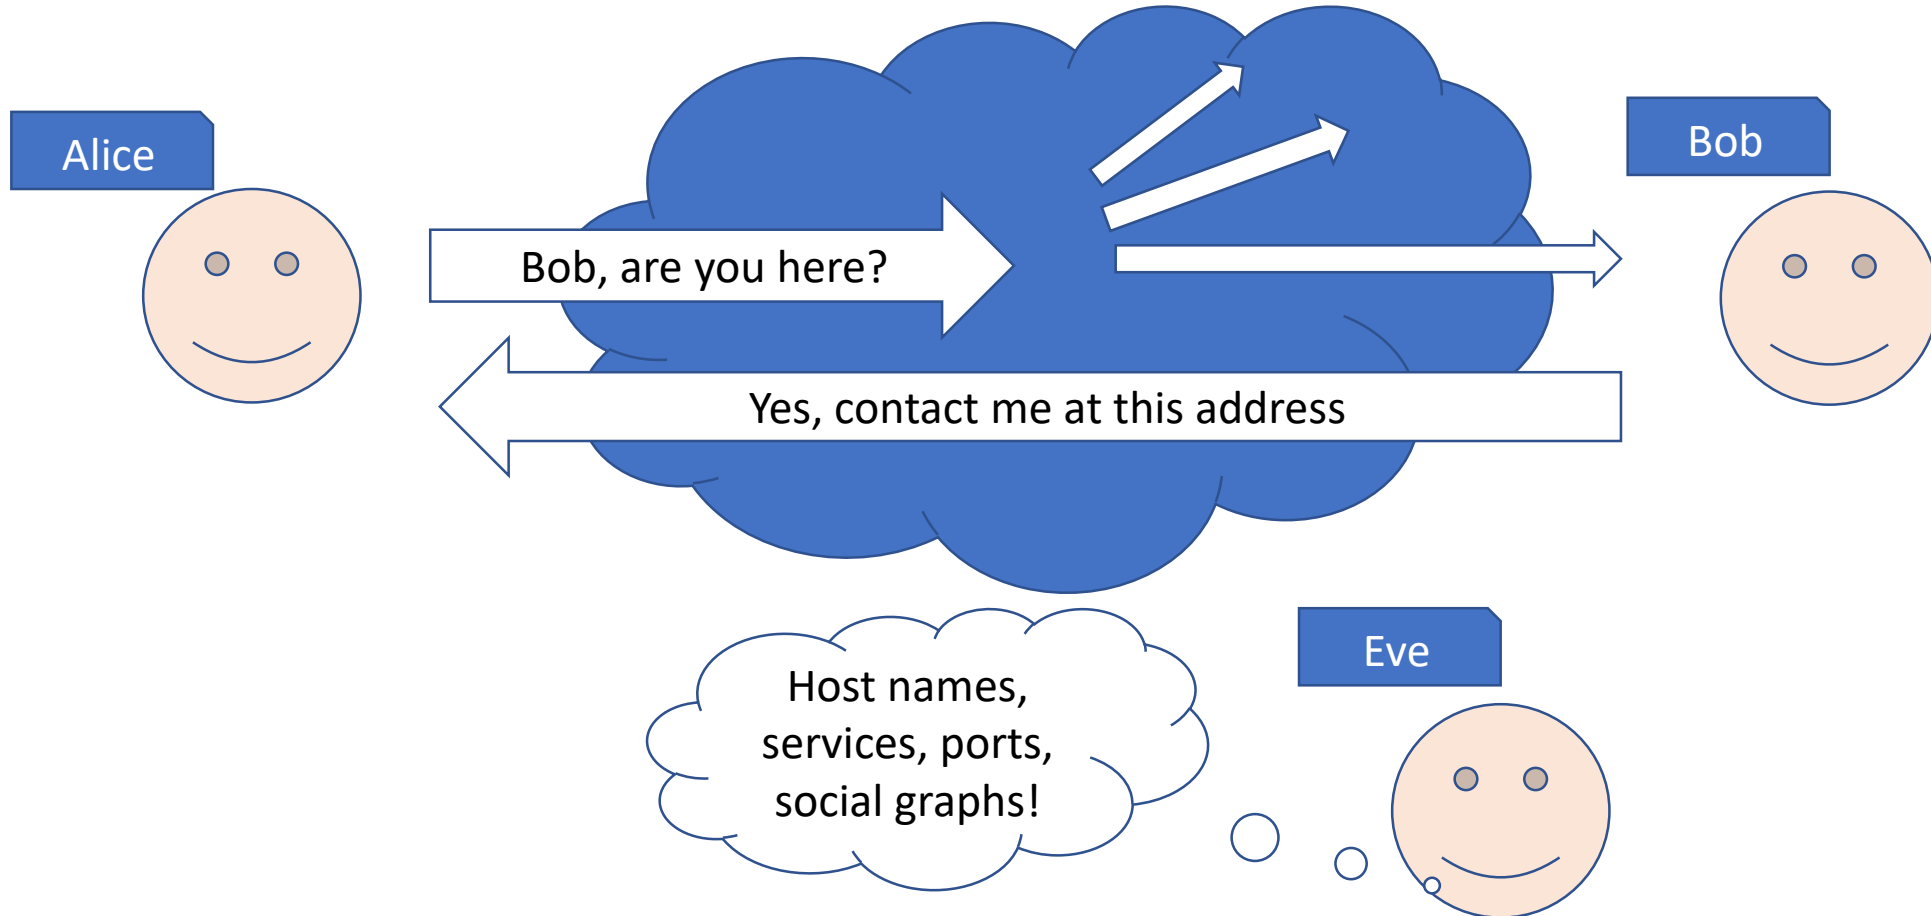

Our Goal: Private Discovery
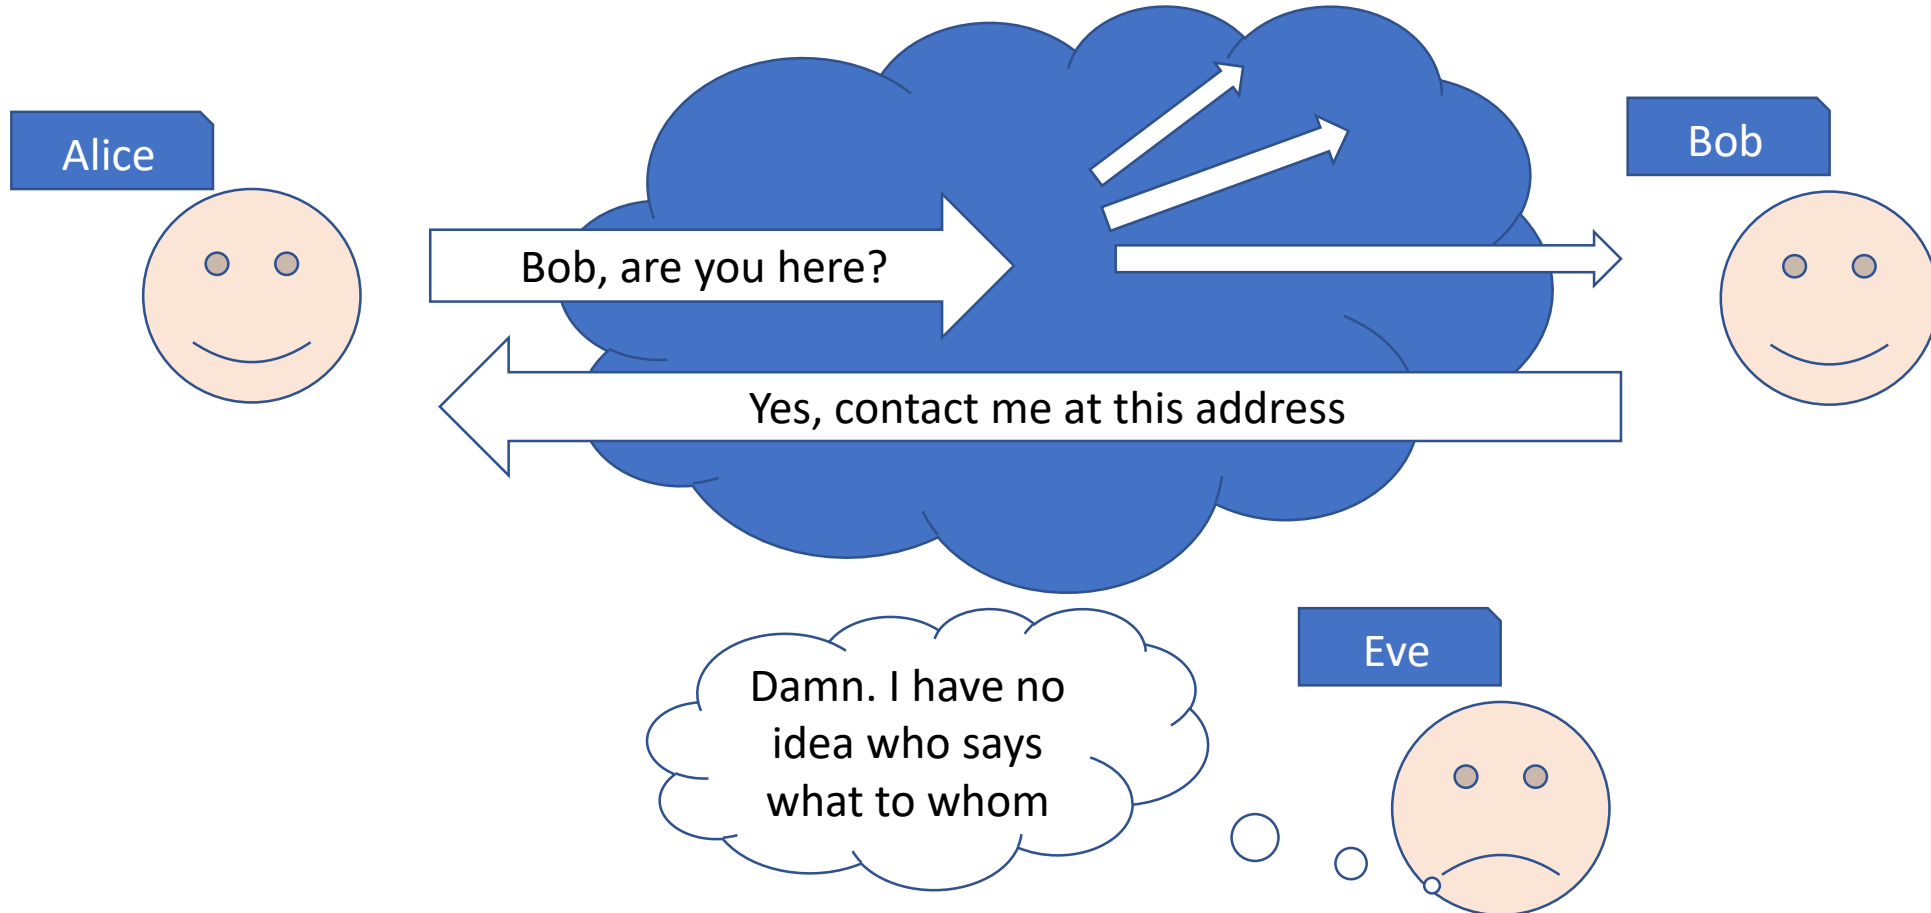

# Scenario 1: Private Client and Public Server

Scenario 2: Private Client and Private Server

Scenario 3: Wearable Client and Server

Are we done yet?
