CalendarEventNotification

① Calendar

- Add mayAddParticipants permission?
- Add Calendar#localName? or #originalName?
- Similarly Calendar#originalColor?
- Rename shareesActAs: owner → secretary or principal?

② CalendarEvent

- Add CalendarEvent#hideGuestList?
- Add CalendarEvent#allowForwarding (guests may invite others; party crashers accepted)?

③ maxSizeCalendarEvent

- How can this capability be useful to the client?

④ Alert Push

- Psuedo type for registration
- But different push type
- Is that weird?

⑤ More scheduling

- Delegation
- Party crashing (RSVP to event you are not invited to)
- Take over
- Counter proposals
