# Intro to MOPS

- Welcome to the first meeting of MOPS as a Working Group!
- Our charter[\*] says MOPS will:
  - 1/ Solicit regular updates from other media technology developing consortia/standards bodies working with IETF-developed protocols.
  - 2/ Solicit input from network operators and users to identify operational issues with media delivery in and across networks, and determine solutions or workarounds to those issues.
  - 3/ Solicit discussion and documentation of the issues and opportunities in media acquisition and delivery, and of the resulting protocols and technologies developed outside the IETF.
  - 4/ Document operational requirements for media acquisition (for example, from cameras and recording devices) and delivery.
  - 5/ Develop operational information to aid in operation of media technologies in the global Internet.
