

draft-ietf-cose-countersign-01

Russ Housley

IETF 109
COSE WG

Jim Schaad's Solution

- Jim Schaad passed on 3 October 2020
- This document is primarily his work
- Russ Housley served as the document editor after Jim's untimely death, mostly helping with the approval and publication processes
- **Jim deserves all credit for the technical content**

Examples

- **The document is complete, except for examples**
- **Done:**
 - Signed Message w/ ECDSA Countersignature
 - Enveloped Message w/ Countersignature on Encrypted Content
- **Empty:**
 - Encrypted Message w/ Countersignature
 - MACed Message w/ Countersignature
 - MAC0 Message w/ Countersignature

Way Forward

- Code for Examples:
<https://github.com/cose-wg/Examples>
- Does anyone care enough to develop the missing examples?
- If not, we can easily remove the empty sections and be ready for WG Last Call
