IETF 109 – Monday, November 16, 2020

Note Well

This is a reminder of IETF policies in effect on various topics such as patents or code of conduct. It is only meant to point you in the right direction. Exceptions may apply. The IETF's patent policy and the definition of an IETF "contribution" and "participation" are set forth in BCP 79; please read it carefully.

- **By participating in the IETF, you agree to follow IETF processes and policies**
- If you are aware that any IETF contribution is covered by patents or patent applications that are owned or controlled by you or your sponsor, you must disclose that fact, or not participate in the discussion
- As a participant in, or attendee to, any IETF activity you acknowledge that written, audio, video, and photographic records of meetings may be made public
- Personal information that you provide to IETF will be handled in accordance with the Privacy Policy.
- As a participant or attendee, you agree to work respectfully with other participants; please contact the ombudsteam if you have questions or concerns about this (https://www.ietf.org/contact/ombudsteam/)

Definitive information is in the documents listed below and other IETF BCPs. For advice, please talk to WG chairs or ADs:

- BCP 9 (Internet Standards Process)

- BCP 25 (Working Group processes)

- BCP 25 (Anti-Harassment Procedures)

- BCP 54 (Code of Conduct)

- BCP 78 (Copyright)

- BCP 79 (Patents, Participation)

Draft adoption?

According to the charter, we have a requirement as a Working Group to adopt an *Architecture/Framework Aspects* document as a working group item.

Pascal Thubert is presenting an individual draft on the subject.

- Is this document proposed for adoption?
- If so, does the Working Group consider it ready for adoption? (answer after the presentation please!)

There are still some other individual drafts not related to charter items, e.g. draft-bernardos-raw-mec-00.
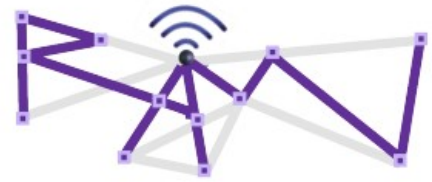

- Still active?
- Ready for adoption?

Draft submission

According to the charter, the *Use Cases* and *Technologies* documents should be heading for IESG review this month.

- What is the opinion of the authors?
- Do the documents have sufficient detail to serve their purpose?
- Do the documents have sufficient review? Volunteers?
