

PASSporT divert,
Out-of-Band and Delegation
Update

IETF 109 (**Virtual**) STIR WG

Nov 2020

OOB, div, and delegation

- OOB and div are done
 - Have RFC numbers, waiting on some final administrivia
- Delegation has some outstanding issues
 - Should we really let intermediate certs sign PASSporTs?
 - How much do we care about aggregating permissions from multiple certs
 - Justification for cross-certification in the draft
