draft-baum-jmap-tasks-00

- **https://tools.ietf.org/html/draft-baum-jmap-tasks-00**

- **Motivation: CalDAV deals with Calendars + Tasks, it would be natural for JMAP to address tasks as well**

- **Initial draft inspired by JMAP for Calendars**

- **Discussion points**

  - "capabilities" for sub-features (e.g., participants)

  - Points from Neil's mail

    - sortOrder

    - Can task be in multiple taskLists?
