

Open Participation Principle

Remote Registration Fees

Mirja Kühlewind (Ericsson)
Jon Reed, Rich Salz (Akamai)

Summary

- Goal: Always have a free option

This document proposes a principle for open participation that extends the open process principle as defined in RFC3935 by stating that there must always be a free option for online participation to IETF meetings over the Internet.

- Adopted by WG: 22 Feb 2021
- Close to Last Call

Remaining issues

Clarification of participation: extending to events like the hackathon

- PR #14: s/IETF meeting/IETF meeting (or related events)/
- PR #15: Add one paragraph to explain that everything needed to work productively in the IETF should have a free participation option
