

Application-aware Networking (APN) BoF Meeting at IETF-111

Chairs

Bob Hinden (bob.hinden@gmail.com)
Daniel Voyer (daniel.voyer@bell.ca)
Adrian Farrel (adrian@olddog.co.uk)

AD

Martin Vigoureux (martin.vigoureux@nokia.com)

Note well

This is a reminder of IETF policies in effect on various topics such as patents or code of conduct. It is only meant to point you in the right direction. Exceptions may apply. The IETF's patent policy and the definition of an IETF "contribution" and "participation" are set forth in BCP 79; please read it carefully.

As a reminder:

- By participating in the IETF, you agree to follow IETF processes and policies.
- If you are aware that any IETF contribution is covered by patents or patent applications that are owned or controlled by you or your sponsor, you must disclose that fact, or not participate in the discussion.
- As a participant in or attendee to any IETF activity you acknowledge that written, audio, video, and photographic records of meetings may be made public.
- Personal information that you provide to IETF will be handled in accordance with the IETF Privacy Statement.
- As a participant or attendee, you agree to work respectfully with other participants; please contact the ombudsteam (
 https://www.ietf.org/contact/ombudsteam/) if you have questions or concerns about this.

Definitive information is in the documents listed below and other IETF BCPs. For advice, please talk to WG chairs or ADs:

- BCP 9 (Internet Standards Process)
- <u>BCP 25</u> (Working Group processes)
- BCP 25 (Anti-Harassment Procedures)
- BCP 54 (Code of Conduct)
- BCP 78 (Copyright)
- <u>BCP 79</u> (Patents, Participation)
- https://www.ietf.org/privacy-policy/ (Privacy Policy)

Agenda

I F T F⁸

- Administrivia (Chairs)
 5 mins (5/120)
- 1. Aims and intentions of the BoF (AD Martin) 5 mins (10/120)
- 2. What's in a name? Clarification of "APN" (Chairs) 3 mins (13/120)
- 3. Questions to have in your mind during the BoF (Chairs) 2 mins (15/120)
- 4. Introduction to APN (Robin Zhenbin Li)
 10 mins + 5 mins questions for clarification (30/120)
- 5. Use cases (Luis Contreras)
 15 mins + 5 mins questions for clarification (50/120)
- 6. Why are existing mechanisms not enough? (Gyan Mishra) 5 mins + 10 mins questions for clarification (65/120)
- 7. What is contained in an APN Attribute and why? (Chongfeng Xie) 10 mins + 5 mins questions for clarification (80/120)
- 8. Work items to be covered (Shuping Peng)
 5 mins + 5 mins questions for clarification (90/120)
- 9. Return to the Questions and open discussion (Chairs) 25 mins (115/120)
- 10. Wrap-up (Chairs/AD) 5 mins (120/120)

This is where the debate is held

Aims and Intentions of this BoF

The AD will speak

The Name "APN"

- Application-aware Networking (APN)
 - There is a long history of using that name
 - "APN6" was mentioned in an I-D in September 2019 and then presented in 6MAN
 - The function and meaning of the term has evolved considerably since then
- Don't get hung up on the name
 - The function may have out-grown the name
 - Please listen to the presentations
 - Draw your understanding of the work from the technical details not from the name

Questions to Have in Mind

You don't have to answer these questions, but please think about them for the discussion at the end of the meeting.

- a. What are the key work items/deliverables?
- b. What are the key things to exclude?
- c. Do you think APN would be harmful in any way?
- d. Is the benefit of APN worth the cost of development and deployment?
- e. Would it be IETF work?
- f. Does it merit a new working group or distribution across existing WGs?

Summary and Next Steps
