# Status cose-x509

- Past IESG discussion - updated I-D is needed
  - External dependencies that are in final stages before publication
- Open topics
  - Two seemingly uncontroversial PRs from Ben and Michael for minor tweaks
  - github Issue 13 - Add ref to <https://www.iana.org/assignments/cose/cose.xhtml#algorithms> in x5t description
  - github Issue #23 #29 #30 #31 #33 - there is a PR <https://github.com/cose-wg/X509/pull/35> waiting for Ben's approval.
  - github Issue 36 - personal opinion - keep as is for consistency and probably
  - Some short additional text on what cose-x509 is protecting people from
