

IETF Discussion List Charter

[draft-eggert-bcp45bis-03](#)

Lars Eggert, gendispatch, 2021-7-28

Background

- In September 2019, previous IESG promised a revision of BCP 45 to the community on the successful conclusion of the "last-call" experiment
- "Last-call experiment" successfully concluded in April 2020
 - But a BCP 45 update was not initiated at the time
- This document attempts to deliver this promised update
 - The intent is a **minimal** update to BCP 45
 - Community may decide on more substantial changes to ietf-discuss separately (or not)

Major changes from BCP 45

- Reference various mailing lists for topics that used to be in scope for the IETF discussion list but no longer are
 - last-call
 - admin-discuss
- Expand description of IETF Sergeants-at-Arms team

Next steps

- 03 revision rolls in all pending changes I am aware of
- Would like to see this dispatched
 - Seems like AD-sponsored would be a suitable avenue forward
- **If the community believes someone else should hold the pen on this, I am happy for that to happen**
