

BGP YANG Model

draft-ietf-idr-bgp-model-11

Mahesh Jethanandani
Keyur Patel
Susan Hares
Jeffrey Haas

Status (-11)

- Structure of the model
 - Reduced the number of sub-modules
- Draft
 - Examples to show how to add a new AFI
 - Example to show how to add a new attribute set
 - YANG Doctors review
 - Have responded to and incorporated most of the comments
 - Left with a few issues to resolve

Issues

- Tracked here
 - <https://github.com/mjethanandani/ietf-bgp-yang/issues>
- Major issues
 - Extended communities
 - Large BGP communities

Next Steps

- Structural issues have been addressed
- Interface with other modules, e.g. BFD, TCP have been examined
- Left with some minor issues before we can ask for LC
