Note Well

Any submission to the IETF intended by the Contributor for publication as all or part of an IETF Internet-Draft or RFC and any statement made within the context of an IETF activity is considered an "IETF Contribution". Such statements include oral statements in IETF sessions, as well as written and electronic communications made at any time or place, which are addressed to:

- The IETF plenary session
- The IESG, or any member thereof on behalf of the IESG
- Any IETF mailing list, including the IETF list itself, any working group or design team list, or any other list functioning under IETF auspices
- Any IETF working group or portion thereof
- Any Birds of a Feather (BOF) session
- The IAB or any member thereof on behalf of the IAB
- The RFC Editor or the Internet-Drafts function

All IETF Contributions are subject to the rules of RFC 5378 and RFC 8179.

Statements made outside of an IETF session, mailing list or other function, that are clearly not intended to be input to an IETF activity, group or function, are not IETF Contributions in the context of this notice. Please consult RFC 5378 and RFC 8179 for details.

A participant in any IETF activity is deemed to accept all IETF rules of process, as documented in Best Current Practices RFCs and IESG Statements.

A participant in any IETF activity acknowledges that written, audio and video records of meetings may be made and may be available to the public.
Sessions and Status at IETF 111

• Tuesday Session III (4-6pm PDT)
• Friday Session II (14:30 – 15:30 PDT)

• Status online at:
  – https://trac.ietf.org/trac/idr/wiki/idr-draft-status

• Interaction with BESS
  – https://trac.ietf.org/trac/idr/wiki/Feedback%20for%20BESS%20drafts

• Interactions with PCE
  – https://trac.ietf.org/trac/idr/wiki/Feedback%20for%20PCE%20drafts
Interims – longer presentations

Dates

• 8/23 – New Drafts listening
  – draft-wang-idr-rd-orf-06
  – draft-wang-idr-vpn-routes-control-analysis-03
  – Others?

• 9/13 – Flow Specification v2

• 9/27 - TBD

• 10/11 – TBD
BGP Autoconf + Flow Specification

• Flow Specification
  – Interim 6/7/2021
  – Agreement: DDoS focus in V1, all else in V2

• Auto-configuration
  – Interim: 6/21/2021
  – Current status: Adopt draft
    • draft-ietf-idr-bgp-autoconf-considerations-01
  – Protocols proposals now welcome
  – If desire Requirements for non-DC send email to chairs
Asked CAR/DT Solutions

1. In the Update packet carrying BGP routes with intent, where does your mechanism carry the "intent"?

2. When a route needs to be sent from one intent domain to another, what is the mechanism that the intent mapping is updated for the receiving domain?

3. What procedure is used to carry routes with intent through BGP route selection "pinch points" such as route reflectors? A pinch point is where two routes that are considered equivalent for route selection purposes based on its NLRI key field may select one from many for propagation.

4. How are the forwarding semantics associated with the intent carried in your mechanism? E.g. labels, SIDs, etc.
