Internet Research Task Force Plenary Report

Colin Perkins

IRTF Chair
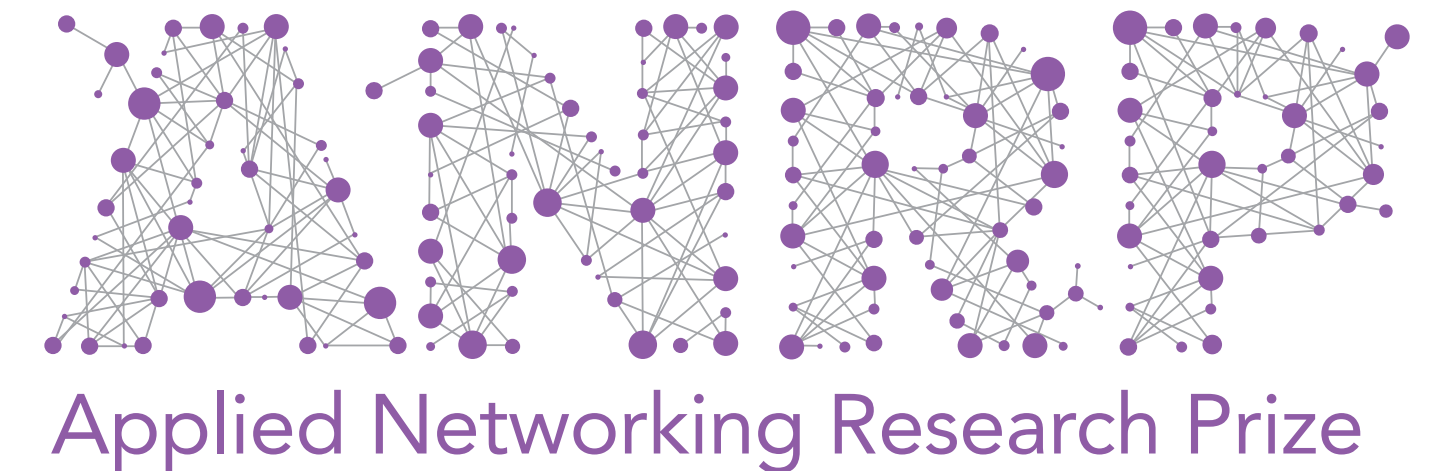

IETF 111 / 28 July 2021

CFRG Crypto Forum Research Group	**COIN** Computation in the Network	**DINRG** Decentralised Internet Infrastructure	**GAIA** Global Access to the Internet for All	**HRPC** Human Rights Protocol Considerations
ICCRG Internet Congestion Control	**ICNRG** Information-centric Networking	**MAPRG** Measurement and Analysis for Protocols	**NMRG** Network Management	**NWCRG** Network Coding for Efficient Network Communications
PANRG Path Aware Networking	**PEARG** Privacy Enhancements and Assessments (proposed)	**QIRG** Quantum Internet	**T2TRG** Thing-to-Thing	

Not meeting
Met earlier this week
Still to meet

The IRTF conducts research; it is not a standards development organisation

"An IRTF Primer for IETF Participants" – RFC 7418

- The Applied Networking Research Prize recognises:
  - the best recent results in applied networking
  - interesting new research ideas of potential relevance to the Internet standards community
  - and upcoming people that are likely to have an impact on Internet standards and technologies

- The awards for IETF 111 went to:
  - **Rüdiger Birkner** for his work on network specification and verification
  - **Sadjad Fouladi** for his work on low-latency video streaming

- Award talks online at **https://irtf.org/anrp/**

ANRW 2021
Applied Networking Research Workshop

- The **ACM/IRTF Applied Networking Research Workshop** concluded earlier today

- Full programme, including papers and recordings of talks available at **https://irtf.org/anrw/2021/**

- Thank you to Andra Lutu, Nick Feamster, and the programme committee, for organising the workshop

- Thank you to our sponsors: Akamai, Comcast, and ACM SIGCOMM
