# **Blob questions**

- Do we need the IANA registry?
  - Datatypes are already defined by the capabilities requested, and they have a registry.
  - Nail down the terminology on 'datatype' at least, because we need a type for it in the doc.
- Do we need limits?
  - MaximumBlobSize etc

#### draft-melnikov-jmap-smime-advanced

- Alexey has a conflict  $\rightarrow$  chairing ohttp!
- https://datatracker.ietf.org/doc/draft-melnikov-jmap-smime-advanced/
- Please review!
- Will issue a call for adoption.

## JMAP Tasks

# Discussion Topic – Big Files

- Mentioned in DISPATCH, probable outcome is another working group.
- Topics of interest for this group:
  - The large file upload problem (Blob catenate can help, but need a way to resume large uploads more generally)
  - Mail, Calendars, Contacts, Tasks all need a way to attach files larger than their serialisation format likes embedding.
